## [done] Which mail server?

Posted by xalia - 2008/05/14 17:31

---

What kind of mail server do I need in order to use this feature of lime? I need to sent mass e-mail (for tokens and reminders), can I user my company's exchange server? I prefer not actually, so where can I buy one? Web based maybe?

Why not reading the manual?

See manual -> installation -> Email
