
[done] question about conditional questions

Posted by tartuffe - 2008/05/16 23:39

Hi,

- 1) is it possible to go x questions further (e.g. 5 questions further) in function of the answer of a question?
- 2) is it possible to go x questions further, y questions further, z question further etc ... in function of the answer of the same question?

Thanks
Tartuffe

That's the right way! If you could please encourage other users to do the same?! This would save us a lot of work :)
