
Data Documentation Initiative 3.0

Posted by cpbettinger - 2008/06/12 20:00

Anybody know if someone is working on getting Limesurvey to work with DDI3 metadata standards?

I don't know if there's any work in progress. However, some months ago I told the DDI Alliance about LimeSurvey, and the value of integrating DDI 3.0 with LimeSurvey. If someone is able to integrate DDI 3.0 - a XML metadata standard to document the survey process from A to Z - in LimeSurvey, then it would be excellent. Should be easy... ;)

We'll dig into this a bit... I'll have a response on Monday.

We've been looking for something like DDI since we started architecting LS2 8 months ago. Great post/edu for us.

We're very interested in DDI. We can tackle it post Beta 1.1... unless there is additional help to integrate in the coming 2 months.

We'll add it to the roadmap.

Note: The LS2 team will start rank ordering Beta 1+ features... so everyone has a clue what's worked on next.

This doesn't belong to DDI but as you were just talking about roadmap/features maybe you can help with this:
http://www.limesurvey.org/component/option,com_fireboard/Itemid,105/func,view/id,14463/catid,11/lang,en/
