
[done] Thank you page - How to modify it?

Posted by patll - 2008/07/04 21:23

Ver. 1.7

Where is the last page, the "Thank you page" or the "Your survey responses have been recorded" page as it give only an option of:

Close this Window - OR -

Click here to print your answers.

I would like to put different links on it.

Probably can't modify the default one, but the page wasn't listed in the other templates either, not that I actually know the name of the page.

I realize that there is the:...

End URL:

Automatically load URL when survey complete?

... on the "Presentation & Navigation" ...

But is that all there is? Is it something that can't be modified?

Hi, go to the "Template Editor" and choose at "Screen" the correct page you wish to edit.

==> eg. Completed page
